Objective

Aspiring Software Engineer with a strong foundation in Java, Data Structures & Algorithms, Object-Oriented Programming, Web Development, and MySQL. Passionate about building scalable applications, solving coding problems, and continuously learning modern technologies.

Education

Parul University, Vadodara, Gujarat

2024 – 2028

Bachelor of Technology (B.Tech) in Artificial Intelligence & Data Science

CGPA: 7.19

Technical Skills

- **Programming Language:** Java
- **Web Technologies:** HTML, CSS, JavaScript
- **Database:** MySQL
- **Core Subjects:** Data Structures & Algorithms, Object-Oriented Programming (OOP), DBMS
- **Tools:** Git, GitHub, VS Code

Projects

Weather Application with User Authentication

- Developed a responsive weather forecasting application using Weather API integration.
- Implemented secure user authentication with login and registration functionality.
- Displayed real-time weather information and 7-day weather forecasts.
- Built using HTML, CSS, JavaScript, Python (Flask), and MySQL.
- GitHub Repository: github.com/sainandhuresu/Weather-App
- Live Demo: weather-app-6ctp.onrender.com

Internship

Full Stack Development Intern – Skill High

- Completed hands-on training in Full Stack Development.
- Worked with HTML, CSS, JavaScript, MySQL, Git, and GitHub.
- Developed responsive frontend applications and understood backend development concepts.
- Learned debugging, deployment, and software development best practices.

Certifications

- NPTEL – Computer Networks
- Full Stack Development Certification – Skill High
